

Safety, Quality and Environmental Policy

Habonim's management and employees are dedicated to the following principles:

- The Company is fully committed to the customer
- Management regards quality, safety in general, and the functional safety of its products in particular - as key success factors
- Management will take all steps and assign all resources required in order to meet these targets
- Management initiates ongoing risk assessments, seeking opportunities for improvement, setting quality goals, and constantly monitoring the Company's performance
- The Company's procedures, products, quality systems, safety and environmental practices will meet the requirements of all relevant national and international standards, as well as the standards of our customers

Habonim implements its policies by:

- Allocating resources
- Educating management and employees in order to raise awareness regarding safety, quality, and the environment
- Continual improvement of the effectiveness of processes and products and enforcing compliance in all areas

The Company works hard to strengthen the partnership between management and employees in order to increase awareness of and commitment to the safety and quality of the Company's products and processes. The Company instructs and trains employees as required by standards guidelines such as: API 6D & Q1, Directive 2014/34/EU, ISO 9001:2015, , Directive 2014/68/EU, ISO 14001, ISO 45001, IEC 61508-1,2, Directive 2010/35/EU and others.

Habonim's management diligently monitors these goals and objectives and continually enhances processes and products as well as the safety and environmental practices in order to ensure that they are met.
