

Functional Safety Certificate

As per IEC 61508-2:2010

This is to certify that:

Floating Ball Valves Series models 1-piece valves, 2-piece valves, 3-piece valves, Multiport valves, Dual- Safe (DB&B) unit

Manufactured by HABONIM Industrial Valves and Actuators

Have been assessed by Hazmat LTD according to the requirements of IEC 61508-2:2010 and, when used under the conditions described in the attached document, are suitable to be part in safety functions up to and including:

Tag / Model	Continuous / high demand	Proof intervals must be less than:
31,32 - 1-piece valves	SIL 2	5 years (as requested by manufacturer)
73,74,77,78 - 2-piece valves	SIL 2	
47,48,26,27,28,24 - 3-piece valves	SIL 2	
61,62 - Multiport valves	SIL 2	
Dual- Safe (DB&B) unit (for all series above)	SIL 3 (For isolation only, for further details refer to paragraph 4.3 in the complete report)	

Tag / Model	Low demand (confidence level)	Proof interval must be less than:
31,32 - 1-piece valves	SIL 3	Please refer to the complete report for advice on proof time intervals
73,74,77,78 - 2-piece valves	SIL 3	
47,48,26,27,28,24 - 3-piece valves	SIL 3	
61,62 - Multiport valves	SIL 3	
Dual- Safe (DB&B) unit (for all series above)	SIL 3	

Issue date: 31 January 2026

Valid until: 31 January 2031
